

the stupid poem

I'm a tiny little leaf

I flutter with the wind

then I float down stream

\perp $\overset{\wedge}{\cup}$
nobody knows

$1 \overset{\vee}{\bigcirc}$ $\perp 1$ $\overset{)}{\triangle}$ \setminus ?
once I made a wish

$\overset{)}{+}$ $\rightarrow \oplus$ \setminus fish
and became a fish

$($ $\perp 1$ $\overset{)}{\triangle}$ $\square 2$
then I made another (thing)

\oplus $\xrightarrow{\text{)}$ \oplus \perp_2 \oplus \wedge_2
and became your brother

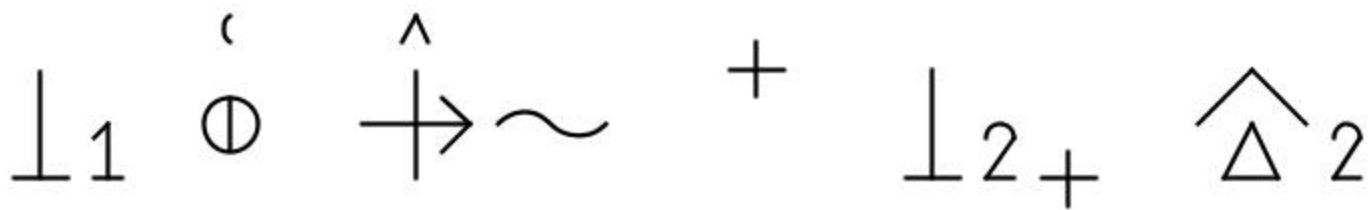

$\text{?} \triangleright$ \perp_1 \triangle^{\wedge} \square_2
if I make another (thing)

$|$ $($ \oplus $\overset{\cdot}{-}$ \times $(| |$
it'll be too soon

\perp_2 $($ $\overset{\wedge}{\odot}$ \perp_1 \square^{\cdot} $/$ $\overset{\times}{\sim}$
you'll see me in the waters

of a blue lagoon

I'll be swimming with your sister

just before a twister

then we'll settle in Kansas

< / ⊕
—

or the Land of Oz

?> ⊥₂ [^] [?] ⊥₁ ?▷

if you ask me why

⊥₁ ([^] ○ ▷?

I'll say because

?> ⊥₂ [^] [?] ..

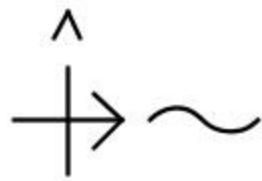

if you ask again

| ($\overset{\wedge}{\oplus}$ / \rightarrow
it'll be the end

\rightarrow ? \rightarrow | $\overset{\wedge}{\oplus}$ -! / \rightarrow
but if it's not the end

\perp 1 ($\overset{\wedge}{\triangle}$ $\overset{\vee}{\times}$ $\overset{\times}{?}$
I'll make more wishes

+ $\overset{\wedge}{\rightarrow}$..
and end up again

swimming

with

the

fishes

the

moral (lesson)

of

the

story

is

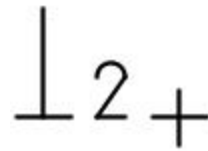

not

to

waste

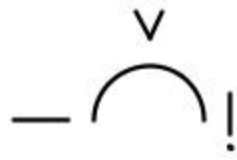

your

time

writing

stupid

poems

< >> $\overset{\wedge}{\triangleright}$ $\overset{\times}{|}$ $|| = \overset{\wedge}{2} \rightarrow$

or to make (cause) them rhyme

+ >> $\overset{\wedge}{\oplus}$ $\overset{\vee}{\times}$ $\overset{\vee}{\odot} !!$

and to be very careful

> „ \square $\perp 2$ $\overset{\wedge}{?}$

of what you wish

< $\perp 2$ $\overset{\vee}{/}$ $\overset{\vee}{\oplus} ?$ $\overset{\wedge}{\boxtimes}$ \heartsuit $\overset{\cdot}{-}$

or you just might get (achieve)

>> [^]⊕ \ [∨]I ⊗
to be a little fish

+ ?> ⊥₂ [^]⊕ -! [∨]⊙!!
and if you're not careful

⊥₂ ([^]⊕ || = ⊥₁
you'll be like me

+ [^]→| [^]→⊕ \ [∨]I ⊗
and end up becoming a tiny worm

but

even (also)

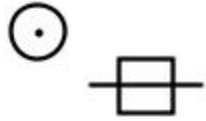

a

worm

can

find

a

home

in

the

belly

of

a

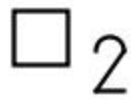

fish

and

make

another (thing)

wish
